- The validity of this quotation is for six months.
- Due to current legislation, medication is not included and is at the patients own expense.
- If no oocytes are retrieved during the puncture despite adequate follicle growth, the cost of the procedure will be €1,265.
- In case of cancellation of the treatment by the patient, the patient must pay €50 per control and €120 per medical consultation.
- Treatment cancellations for hormonal, follicular development or endometrial development reasons are free of charge.
- For the express pack, the eggs retrieved will be preserved for a minimum of 2 years. It will not be possible to use them during the stated period.
